KYRAN STAGG

Software Engineer

ABOUT ME

I am a well-organized, creative, and team-oriented software engineering professional. I enjoy hockey, running, table-top games and above all, people!
I have experience working in full stack development and in agile teams. I have proven experience in building web applications with frontend JavaScript frameworks, while also building RESTful API micro-service backends with PostgreSQL

Education Payroll Limited
Wellington, New Zealand
November 2022 – January 2023

- Intermediate Full stack developer working on the largest payroll system in New Zealand
- Delivered strike and employment agreement change features build in a short timeframe of one month.
- Utilized skills to redefine the Angular front end and enhance Dotnet backend.
- Worked closely with junior developers to enable them to build long lasting, clean front-end code.
- Worked on UI enhancement proposals in Figma.

DEVELOPER
Loyalty NZ
Wellington, New Zealand
January 2022 – November 2022

- Intermediate Full stack developer working on the Flybuys rewards website and cloud applications.
- Accountable for maintaining New Zealand's largest marketing data set with over 3 million users.
- Maintained existing Ruby on Rails site and Ruby microservices in AWS.
- Responsible for migrating legacy Rails site to Typescript-Next.js (React)
- Handled support requests in a rotated roster.
- Moved development environments from local manual setups to Docker containers.
- Integrated code style and linting for company projects with an included write up of explanations

DEVELOPER
Arlo Training management software
Lower Hutt, New Zealand
April 2021 – December 2021
- Lead Developer in the Website Integration Team
- Created full integrations on client websites to promote and sell their training courses.
- Responsible for the maintenance of the Arlo web controls library and WordPress plugin.
- Upgraded Arlo widgets to use SCSS and ES6
- Implemented azure pipelines to test, format & lint code submitted by any web dev.
- Worked in an agile format running standups and using scrum boards.
- Worked with clients to create heavily customized integrations instead of usual integrations.
- Redefined web team integration creation processes
- Trained new developer and helped with training new designer.

WEB SUPPORT SPECIALIST
Arlo Training management software
Lower Hutt, New Zealand
October 2020 – April 2021
- Key Role in the Arlo 'Web Team' handling ad hoc coding/integration tasks; small integrations, sales, support, and administration.
- Worked on production sites to ensure delivery of training events for many clients.
- Used JavaScript, HTML, CSS and jQuery to meet client requirements.
- Handled all web related support queries.
- Managed the 'Integration Developer's' tasks with Dynamics, Azure boards and Git to ensure delivery of client integration on time.
